## Tank Truck Service

\*\*\*

Texas Premier Resources, LLC

A growing oil field service company headquartered in Houston, Texas, PTT specializes in hauling and oilfield service work, including drilling, completion, and production. Premier Tank Truck Service was started in April 2003 in Johnson County, Barnett Shale. Acquired in 2007 by the current president William Brown, the company has since expanded its operations throughout Texas.

---

### OUR VISION

PTT has built the infrastructure for growth: new trucks, systems, SOPs/ Controls, Dash Board Reporting and Operational Staff. Our vision for the future is steady, manageable growth characterized by the same honesty, integrity, and enthusiasm that got us started.

### OUR MISSION

PTT strives to provide safe and quality service that our employees are proud of and are customers are satisfied with in the shale plays we serve. We strive to foster valuable relationships between our employees and our customers and also to maintain environmentally friendly equipment to keep our company and the roads safe.

# OUR SERVICE

## Drilling

Services include transporting fresh water for drilling, hauling oil and water based muds, using end dumps for cutting, and renting frac tanks

## Completion

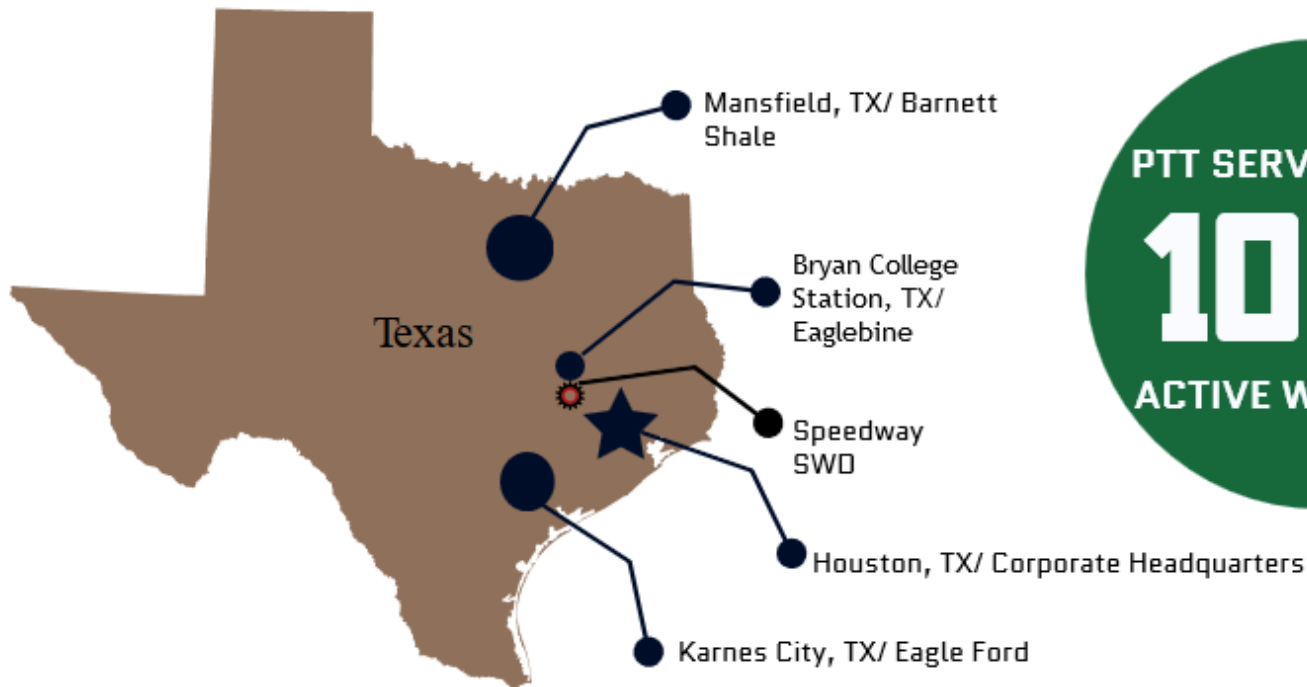

Services include hauling frac fluid to the well site and hauling flow back water from the well site while setting frac tanks for storage

## Production

Services include hauling produced saltwater from tanks stored at well sites and performing service work to maintain environmentally safe locations

# OUR OPERATIONS

PTT SERVICES OVER  
**1000**  
ACTIVE WELL SITES

Premier has service yards in the Barnett, the Eagle Ford, and the Eaglebine Shale plays, and therefore has the ability to provide the highest quality of service to all our clients. Expansion is planned for West Texas Permian Shale, the Utica Shale plays, and the Scoop and the Stack plays in Oklahoma .

# OUR SAFETY

Safety and protection of the environment [HSE] are of the highest priority at Premier. Our commitment to equipment maintenance, training and safe operating procedures is a critical part of our business.

## DRIVER TRAINING

All Premier drivers attend weekly safety and daily tailgate meetings at each shift change. Drivers receive professional training annually from certified safety instructors. Premier constantly tracks driver certification to ensure all training is current. Premier will not put an unsafe driver or truck on the road.

## FLEET MAINTENANCE

Well conditioned vehicles are safe vehicles. Premier routinely replaces older equipment with new. Premier's own maintenance personnel work around the clock to make sure that our vehicles meet our own rigid standards as well as being compliant with Community, County, State and Federal DOT guidelines.

# OUR TEAM

Premier Tank Truck Service is looking for dependable drivers, dispatchers, mechanics, field managers and corporate employees to add to our team.

"PTT's culture starts with safety and ends with teamwork. We approach every day with a humble, service-minded work ethic. We need employees who are willing to work together to advance our goal of excellence as a company."

-Will Brown, President
